

# MUCK HOME & FLORAL

2024/25 Wedding Brochure

# About Us

I'm Megan, the founder and creative behind Muck Home & Floral Design. I discovered my passion for flowers back in 2020 after ordering a DIY dried wreath kit in lockdown. I quickly began my Etsy shop in 2021 and after nearly a year of focusing solely on Dried florals I started my fresh flower journey with The Covent Garden Academy of Flowers; and my skills and business have bloomed from there. I now work from my little studio at the bottom of my garden in our Worcestershire home, where I live with my Fiancee and two cats; here I design and create all your beautiful florals from start to finish.

I love nothing more than creating something beautiful with dried or fresh flowers and making it look gorgeous whether that's in your home or event space; my other interests include interior design & styling, travel and food.

## Why Muck Home & Floral?

Creating beautiful flowers is my passion, from picking up the phone on our first consultation to delivering and styling your flowers I love every minute. Everything I create is made with heart, whether that be your initial moodboard or your wedding bouquet. If you book Muck Home & Floral for your big day you'll be working with someone as excited for your day as you are!

As your florist I am here to work for you, I'll do everything I can to ensure the process of planning and designing your florals is stress free and advise you on how to get the most out of your budget, big or small.

I do my best to ensure your flowers are as sustainable as possible, using foam free methods, and sourcing British flowers from local growers wherever possible.

# Wedding flowers 101

Not sure where to start with your wedding flowers? Here is a quick guide!

## Bouquets - what's the difference in sizing?

I do three 'sizes' of bouquet: Bridal, bridesmaids bouquet and bridesmaids posy.

The bridal bouquet is always the show stopper, with bridesmaids bouquets coming in a little smaller and/or having colour/style differences to allow the bridal bouquet to really stand out!

Posies are great either for your junior bridesmaids, or for saving a little bit of money to spend on a bigger installation or statement bridal bouquet!

## Buttonholes & Corsages - what is the difference?

**Buttonholes:** Worn on the lefthand side of the lapel, these mini bouquets are designed for the important men on your day, generally this is The Groom, Groomsmen and/or ushers, pageboys and fathers/grandfathers - you can have any combination of these wearers, as many or as few as you'd like!

**Corsages:** A slightly more flamboyant version of a buttonhole designed for the female members of your party; mums, grandmothers, friends and sometimes bridesmaids. These can be worn either on the right side of the lapel or on the wrist.

## Where could I have flowers?

There are so many options when it comes to flowers, here are some ideas split by where they fit into your day! If you're not 100% sure what would look best, we can also schedule a venue visit to make the best of the space and budget you have!

### Ceremony:

Entrance arrangements/arch, aisle decor, ceremony table/top of aisle, arbour/outdoor pavilion decor, in memory flowers on seats.

### Reception:

Top table, guest tables, stair cases (internal or external), balconies, photo backdrops, mantle pieces, hanging installations, balconies.

### The details:

Welcome signage, table plan, bar & drinks reception arrangements, loose flowers for detail photos

## What should I know before my consultation?

You don't have to know exactly what you want before you get in touch to book your flowers; designing your wedding flowers within your budget is all about shimmying things around and prioritising, with the following two pieces of information we can work together to do this easily:

1. What is your approximate maximum spend?
2. What are your priorities when it comes to flowers? Is this personal flowers, centrepieces, a gorgeous installation?

# What do wedding flowers cost?

If you're going with the pick and mix package then all the costs are on our web shop. Please note these prices will be reviewed and potentially increased every six months so if you're planning to order, order ASAP to avoid price increases.

An average Muck Home & Floral couple spends £1500 on their wedding flowers with us, but that doesn't mean this is your starting point, most of our couples fall anywhere from £1000-£5000.

No matter how much you're choosing to spend on your flowers Muck Home & Floral will design something that suits your taste and your budget as well as complementing your venue.

Below is a price guide for the most common items on my couples floral Wishlist, in addition to this I also charge for delivery if required and on the day labour for setting up/moving your florals at the venue:

## Personal Flowers:

Bridal Bouquet - £130+

Bridesmaids - £60+

Flower girls - £40+

Buttonholes &

Corsages - £13+

Adult Crowns - £85+

## Decor Flowers:

Pew ends - £15+

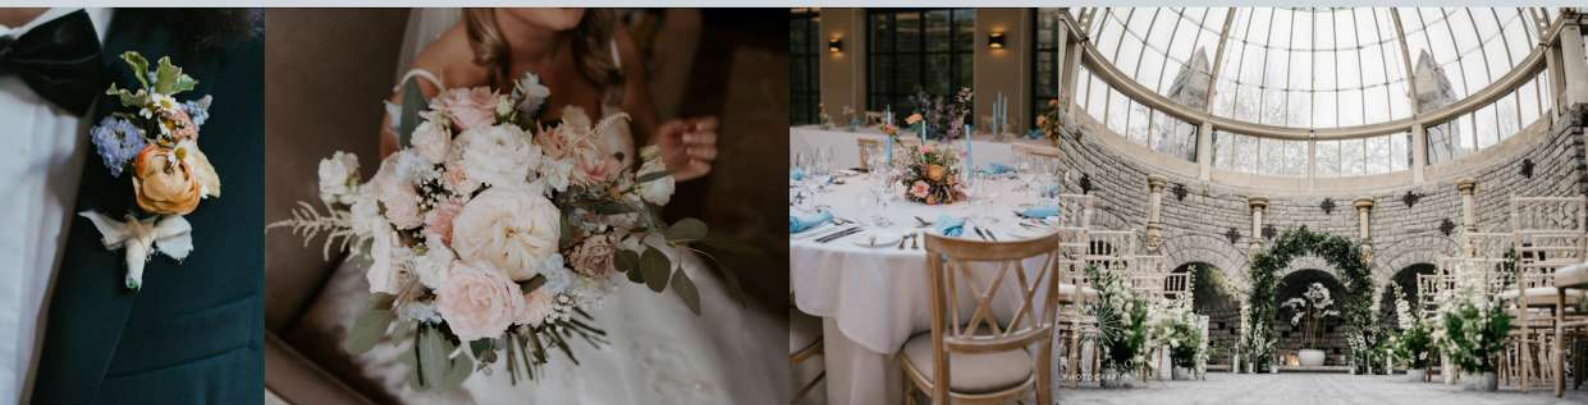

Ceremony table - £175+

Centrepieces- £45+

Signage - £30+

Cake Florals - £250+

Installations - £300+

If you're looking for venue florals too and a little more style input this package is for you!

This Package is totally bespoke and tailored to you and your day. I will design florals for each aspect of your day that suit your taste and your budget as well as complementing your venue. For more details on how the process works see the upcoming pages..

Minimum spend excl. delivery & labour charges

2024: £1300

2025: £1500

2026: £1750 - save the date diary is open but it is too early for a full proposal and quote at this time.

## Save the Date Option

---

Not sure what you want yet, but know you want to book in with me?

Instead of getting stuck into designing your florals this option allows you to book your date in my diary and get in touch to begin planning when you're ready.

Minimum spends are the same as the full package., Save the date deposit is £300

# Kind words

## Matt & Hannah

Megan made our wedding so special and no request was too big or too small. She was so professional and organised from our first zoom call through to the day itself. We simply can't recommend her enough. She went above and beyond to meet our brief and created the most beautiful flower arrangements that went beyond what we could imagine. We wanted rustic yet elegant florals and we changed our brief a few times during planning, Megan was so calm and thorough in making the necessary adjustments and made the whole process so easy and effortless for us. Hugely hugely recommend!!

## Adam & Tamanna

Megan is amazing and created the most beautiful florals for my wedding! Everything turned out even better than I could've imagined! We had loads of compliments on how beautiful all the flowers were and this is all thanks to Megan! Thank you for everything!

## Tom & Niamh

My bridal bouquet was particularly beautiful and I was in tears when Megan presented it to me.

We had so many lovely comments about how beautiful the flowers were and we couldn't have been happier with the service as well as the flowers themselves.

I would highly recommend Megan to any couples planning their wedding, she was faultless throughout.

# The Full package: What's the process?

## 1. Send us an enquiry via the online form

Completing the enquiry form gives me all the details I need to confirm if I am available to flower your wedding. The more detail you provide here the better picture I get to prepare for our consultation call. You can also send me any images, inspiration and your own mood boards via the email listed on the enquiry page of my website.

## 2. Schedule a call to discuss your day

I will respond to your enquiry within 24 hours and if I am available to do your wedding flowers we'll get a short call in the diary (45 mins) to discuss your day and the ideas you have for your flowers. These calls run best if you already have an idea of budget in mind as well as some ideas on what's most important to you when it comes to your flowers!

## 3. We'll prepare your bespoke proposal & Quote

After our call I prepare a moodboard and quote based on what we've discussed, usually this has a few options for you to choose from included; this can take anywhere from a couple of hours to a few days depending on my capacity. This is valid for two weeks from when it's issued, and within this time I will hold your date, unless stated otherwise. I'll also send over a copy of my terms and conditions.

## 4. Booking your florals

Once you've had the opportunity to read through your proposal and the T&Cs we can either proceed straight away with your deposit to confirm your date in the diary or schedule a further call to confirm any details ahead of confirming your date.

## 5. Before your wedding day

Once you're booked in I'll get in touch with your venue to pass on my details and confirm any necessary arrangements. If you'd like a venue visit we will get this scheduled, but otherwise I'll be in touch 8-10 weeks before your date to finalise your florals on another call.

# Thank you.
